KITESURFING

Our hotel has one of the best kitesurfing schools in Egypt!

Kitesurfing it is riding on a water surface on a board (kiteboard) with a kite due to the force of the wind that occurs in the process of controlling the kite.

One of the advantages of kitesurfing is that, compared to other types of water extreme sports - such as classic surfing, windsurfing or wakeboarding, kitesurfing does not require a good level of physical fitness.

In fact, the kite is controlled only with the hands everybody even adults or children can do this. The only mandatory requirement is that body weight must exceed 30-35 kg.
